¹ The decrease in net premiums written was primarily attributable to our transportation network company (TNC) business, due to a year-over-year decrease in the monthly adjustment for projected mileage, which is the basis for computing premiums. Excluding all TNC business, our total Commercial Lines net premiums written would have decreased 2% for the month.

² Represents catastrophe losses incurred during the period, including development on prior events and the impact of reinsurance, if any, as a percent of net premiums earned.

³ Represents adjustments solely based on our normally scheduled actuarial reviews. For our Personal Lines property business, the actuarial reserving methodology includes changes to catastrophe losses, while the reviews in our personal and commercial vehicle businesses do not include catastrophes.
