

HOW IT WORKS

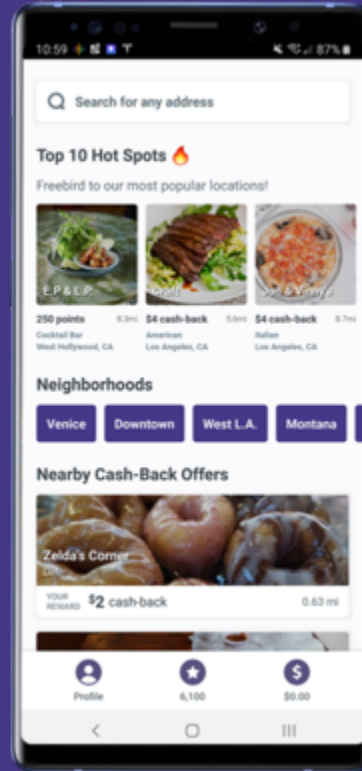

Freebird is free to users. Users browse and search among thousands of restaurants and bars which offer cash back against the cost of their Uber or Lyft. Once the user transacts at the location with a linked card, the cash back is dropped into their Freebird account which they can then transfer out to their bank account. For non-cash back destinations, users still earn 250 rewards points anywhere they ride including their home, office, airport, or a friend's house. When they accrue 5,000 points they can redeem for \$10 cash back. There is no minimum or cost to cash out.

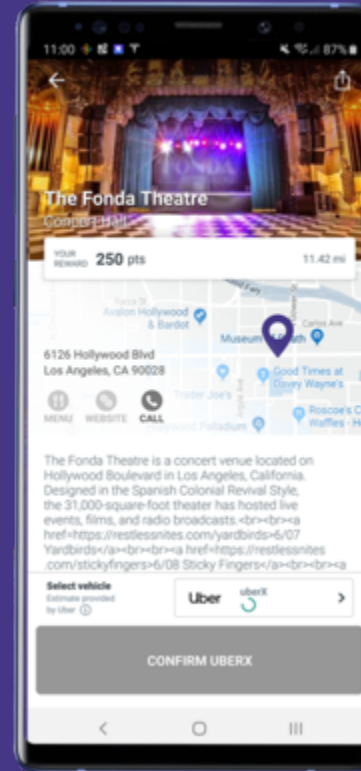

Download Freebird and create an account

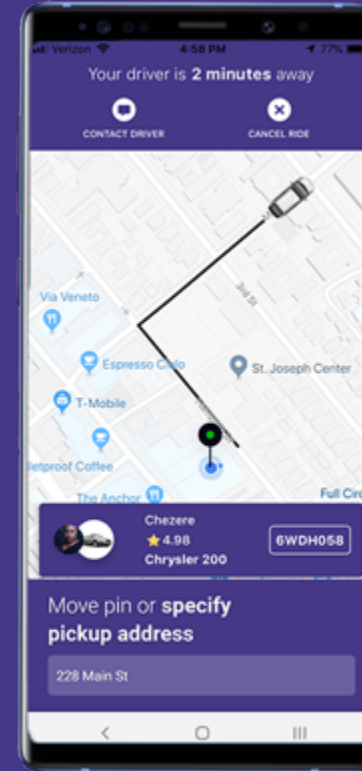

Link your Freebird account to Uber/Lyft once upfront

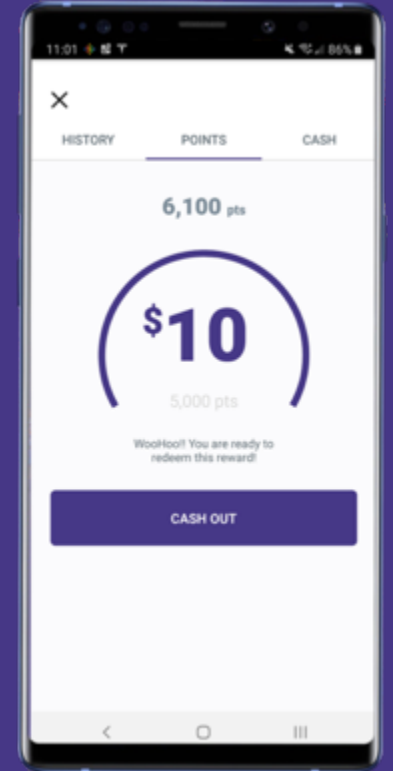

Explore numerous personalized offers

Select your favorite offer and your car will be hailed in Freebird

Ride to destination as normal

Get instant cash back/rewards directly into your Freebird account
