- Intas Pharmaceuticals Ltd
- Perrigo Company PLC
- Dr. Jockers Store

**Other Reports That Might Be of Your Interest:**

- [Diabetic Foot Ulcer Treatment Market Report](#) - The diabetic foot ulcer treatment market is expected to register a CAGR of 5.90% during the forecast period (2023-2028).
- [Sinusitis Treatment Market Report](#) - The sinusitis treatment market is expected to register a CAGR of 6.40% during the forecast period (2023-2028).

**Key Highlights from the Sarcopenia Treatment Market Report:**

***Demand for Protein Supplements to Drive the Market***

- Protein is critical to maintaining normal bodily functions. Daily protein intake is, thus, essential to maintaining muscle mass and strength. Therefore, including protein in diets prevents the loss of muscle mass, thereby driving the market.
- The increasing R&D activities are helping identify the protein usage needed to fulfill the protein deficiency and treat sarcopenia, thus, driving the segment.

***North America to Hold Significant Market Share***

- North America is expected to hold a significant market share due to the presence of developed healthcare facilities and technological developments.
- Various initiatives by the government are supporting the research and development of sarcopenia treatments, driving the growth of the market in the region.

**What are the Latest Developments in the Sarcopenia Treatment Market?**

- In July 2023, Biophytis applied for approval from the US FDA to launch SARA-31, which is expected to be the first Phase II study in sarcopenia.
- In February 2023, University College Dublin started a clinical trial to study the efficiency of a 12-week resistance exercise program with or without an oral nutritional supplement.
