

## NACON ANNOUNCES XBOX COMPATIBILITY FOR ITS REVOSIM SIM RACING ACCESSORIES

Lesquin, August 19<sup>th</sup>, 2025 – Nacon, a licensee of Xbox, unveils a new suite of Revosim racing sim products for Xbox. As such, new peripherals that are **fully compatible with Xbox Series X and Xbox Series S consoles will soon be available**, continuing NACON's mission to offer racing enthusiasts ever greater immersion and performance.

This announcement comes just a few weeks after the **successful launch of the RS Pure**, Revosim's first Direct Drive model designed for PC gamers. This 9Nm base comes with a 100kg Load Cell pedal set and a customizable steering wheel, laying the foundations for a **modular, accessible, and high-performance ecosystem**. Future Revosim Xbox products will fully integrate the rest of the ecosystem, **being compatible with the already announced add-ons**: RS Pure Loadcell Handbrake, RS Pure Hybrid Gearbox, RS Pure Clutch Pedal.

Details on technical specifications and release date will be revealed in the coming weeks.

*"The entire Revosim team is extremely proud to soon be offering a new comprehensive ecosystem for Xbox console users. This collaboration reflects our ongoing commitment to providing gamers with ever greater immersion, realism, and enjoyment. As sim racing enthusiasts, we design each product with precision and attention to detail to deliver an experience that faithfully replicates the sensations of racing. With Revosim, NACON is strengthening its strategic position at the crossroads of racing game development and simracing hardware manufacturing, bringing high-level immersion and racing passion to every simracer — whether they compete at the highest level or simply share a passion for the sport."*  
— Sébastien Waxin, Head of Racing at NACON.
