American Society of Echocardiography Releases 2026 Dates for Live, In-Person Cardiovascular Ultrasound Education Events

(DURHAM, NC, December 11, 2025)—The [American Society of Echocardiography \(ASE\)](#) has announced the 2026 schedule for its in-person education courses, which provide cardiovascular ultrasound professionals, industry partners and imaging enthusiasts with high-quality learning and professional development opportunities.

Held throughout the year at locations across the United States, [ASE's 2026 in-person courses](#) deliver hands-on training, exposure to emerging technologies, expert-led case discussions, information on ASE's latest practice guidelines and dedicated time for networking with peers from across the field of cardiovascular ultrasound. Attendees can expect interactive panel discussions, gamified learning formats, and targeted instruction delivered in concise, actionable segments.

"ASE educational courses are designed to meet the evolving needs of today's cardiovascular care teams and support physicians, sonographers, nurses, veterinarians, and scientists at all career stages," said 2025-2026 ASE President Dr. David Wiener. "Our 2026 offerings will highlight the latest advancements in echocardiography and equip attendees with practical skills that directly enhance patient care."
