Caption 1

Members of Chester Community Charter School's award-winning robotics team, "The Bionic Beasts," were recently honored and recognized, at a reception, for their performances at robotics competitions held at Central High School, and the University of Pennsylvania, earlier this year. "The Bionic Beasts," who will go on to compete in the upcoming National Robotics Competition, will face off against 80 teams, from around the world. Pictured here (from left to right) are sixth-grader Emily Harris, eighth-grader Diamond Carter-Lowry, seventh-grader Miguel Rosario, eighth-grader Nyerra Walcott, eighth-grader Amanda Lopez-Corcino, eighth-grader Syreeta Dukes, and eighth-grader William Moore.
