- ✓ Illustratively, assuming a 12x multiple on DRS 2021 EBITDA results in an enterprise value of ~\$3.3bn and equity value of ~\$3.1bn
- ✓ Since DRS will own 80% of the combined business, this implies a ~\$3.8bn equity value for the combined company and an equity value for RADA of \$744mm or \$14.33 / share
- ✓ We view 12x as a conservative multiple, with comparable SMID-cap defense electronics and defense primes trading at an average of 13.5x 2021 EBITDA
- ✓ **Assuming the combined company executes on its guidance for double digit earnings growth per annum and achieves a low to mid teens TEV / EBITDA multiple, there is material upside in RADA's share price from current levels**
