Travelzoo's calculation of non-GAAP operating income, also called "non-GAAP operating profit" in this press release and today's earnings conference call, excludes the following items: impairment of intangibles and goodwill, amortization of intangibles, stock option expenses, and severance- related expenses. This press release includes a table which reconciles GAAP operating income to the calculation of non-GAAP operating income. Non-GAAP operating income is not required by, or presented in accordance with, generally accepted accounting principles in the United States of America ("GAAP"). This information should be considered as supplemental in nature and should not be considered in isolation or as a substitute for the financial information prepared in accordance with GAAP. In addition, these non-GAAP financial measures may not be the same as similarly titled measures reported by other companies.

#### **Looking Ahead**

For Q3 2022, we currently expect higher revenue year-over-year and profitability. We continue to see a trend of recovery of our revenue. However, there could be unexpected fluctuations in the short term. During the pandemic, we have been able to lower our fixed costs. We believe we can keep our fixed costs relatively low in the foreseeable future—while revenue is expected to grow.
