

Spirax Sarco will be presenting and exhibiting at PACK EXPO, Las Vegas

Learn how to achieve net zero goals, through system efficiency, connected insights, and decarbonization options throughout the steam system.

For immediate Release

Blythewood, SC – August 21, 2023 – Steam and energy experts from Spirax Sarco USA will be showcasing high quality sterile and sustainable solutions with a diverse product range at PACK EXPO, Las Vegas Convention Center on September 11 - 13, 2023. Attendees are invited to booth N-10424 to speak to steam and energy experts about their business needs and to see products that will help customers in the Pharmaceutical, and Food & Beverage industries minimize waste, reduce CO2 emissions, and improve process efficiency in their steam systems.

At 10:00 AM on Tuesday, September 12, 2023 Alex Rosa, Spirax Sarco Senior Manager, Applications, Sales & Support, will take the Processing Innovation Stage N-10511, to deliver a presentation *The Journey for the Steam System Decarbonization*. Rosa, an Automation Engineer with 28 years of experience working as a Steam Process Application Solution Provider, in a 30-minute session will preview the technology that will help attendees on their journey with the design, optimization, and net zero solutions of process and utility steam.

"Steam is the most efficient fluid to transfer energy; therefore, the optimization of your steam and condensate return system is the first step in your companies' decarbonization journey. Our thermal energy solutions in the Pharmaceutical, and Food & Beverage industries will help optimize, manage, and innovate to improve your process energy and water usage; minimizing waste, CO2 emissions, and reducing costs," said Loran Garnett, Spirax Sarco USA Market Development Manager.
