Key Highlights from the Global Aesthetic Threads Market Report:

Significant Growth in Facelift/Skin Rejuvenation Segment

- Thread lift procedures are gaining popularity due to the increasing demand for non-surgical procedures worldwide. It is a much easier process for the patient, which involves getting filler-like substances instead of facelift surgery.
- The COVID-19 pandemic initially impacted facelift procedures but may lead to a surge in the coming years due to postponed appointments.
- Market players are launching new products, driving the growth of the thread lift segment.

North America to Continue Dominating the Market

- Thread lifts have quickly become one of the most popular non-invasive cosmetic procedures in the United States, especially among the older population. The demand for facelifts and blepharoplasty is significantly higher in the United States, contributing to the growth of the aesthetic threads market.
- Increased product launches and company collaborations are driving the market for aesthetic threads.
- The market is expected to register robust growth in North America as it is yet to reach its full potential, with a wide variety of indications and a large potential patient pool for cosmetic threads.
