

LIDDS employs Head of Business Development

LIDDS announces today that Markus Thor has been appointed as Head of Business Development and will join the company in March 2019. The employment is a consequence of the enlarged project portfolio and the broad interest from the pharma industry for the NanoZolid technology.

Markus Thor has a thorough experience in business development and out-licensing from companies like Biovitrum, Kancera and Medivir. Markus holds an Executive MBA from Stockholm School of Economics and MSc in Chemistry from University of Umeå.

-We are very happy to welcome Markus to LIDDS. He has a solid background and substantial deal track record and will be a good asset in our management team. Markus will have an important role in the company's expansive phase as the NanoZolid® technology opens up many business opportunities, says Monica Wallter, CEO of LIDDS.

-I am excited to join the competent LIDDS team and look forward to contributing in the company's further development and value creation, says Markus Thor.

Markus currently works as Senior Investment Advisor at Business Sweden and will start his new position at LIDDS in March 2019.
