

The No-BS Blueprint for Success

The *Dentist Who Gets It: The No-BS Blueprint for Success* by Steve Hymovitch (aka Dr. H) is a book for those in specialty healthcare, healthcare, or business in general, who are looking for momentum in their business and life. Dr. H looks past “quick fixes” to putting the time in for success. He guides readers to a path where they can marry their head and heart to be successful, both professionally and personally. This book fills a void for those in healthcare that set off in an uphill battle for success after graduate school, daunted by debt, and lacking business acumen. Dr. H, a self-made man, shares his tried-and-true methods for success—from keeping pace with the latest healthcare trends, to leading in today’s environment, to managing balance sheets, to selling a practice for a profit. Using self-deprecating and smart humor, *The Dentist Who Gets It* is an enjoyable read that helps readers figure out where they are and where they want to go.

Over his career, “Dr. H” has developed and expanded more than twenty dental offices. His current Tucson- and Phoenix-based dental specialty practice, Valley Endodontics & Oral Surgery, consists of more than ten offices, making it the largest Endodontic/Oral Surgery practice in the Southwestern United States. In 2017 he and his wife Julie co-founded the Scottsdale Leadership and Coaching Center in the heart of Scottsdale, Arizona.
