ESSENTIAL LMS BUNDLES

Why buy an LMS without content? And, why buy an LMS with content and have a separate authoring tool?

eLogic offers editable content bundles from industry-leading providers that can help increase the knowledge and skill sets of your users. Yes, the content can be edited to use your verbiage, branding, images, logo, and more! Plus, with our native integration with the dominKnow | ONE authoring tool, editing these courses just got even easier! It's as simple as hitting one button to upload the course into eSSential LMS.

Here's just a quick glance at what's included:

→ All the features and functionality of both the #1-ranked LMS and the #1-ranked authoring tool, plus a custom course
→ Top-ranked micro-learning courses aimed to improve the skills of both managers and individual team members
→ Microsoft Office suite courses from entry-level to advanced users covering Word, PowerPoint, Excel, and more
→ Traditional e-learning course bundle including courses on HR compliance, business skills & ethics, health & safety, and more
→ Thousands of bite-sized e-learning videos covering various computer softwares, operating systems, internet tools, and more
