PRESS RELEASE

ePac Flexible Packaging Enhances Digital Printing Capabilities in Canada

Fast-growing company boosts productivity in its Toronto location

ePac Flexible Packaging, the leading provider of digitally printed flexible packaging, proudly announces the expansion of its digital printing capabilities in Canada through the addition of an HP Indigo 200K digital press at its Toronto facility, bringing their total number of these next-generation presses to five in North America. This strategic investment reinforces ePac's position as Canada's largest digital flexible packaging producer, now boasting a total of nine digital presses across its Vancouver, Toronto, and Montreal locations.

With its existing fleet of 8 HP Indigo 25K digital presses spread throughout Canada, the inclusion of the HP Indigo 200K digital press is a testament to ePac's commitment to innovation and sustainability in flexible packaging. This expansion enables ePac to offer unparalleled print quality, efficiency, and turnaround time to its customers, further supporting small and medium-sized businesses in their growth and competitiveness.

"Our presence across the country, from Vancouver to Montreal, underscores our dedication to being close to our customers, understanding their needs, and delivering customized solutions with a quick time to market," said George Boustani, Managing Director, ePac Canada. "The addition of the HP Indigo 200K to our Toronto plant allows us to scale our operations and continue providing eco-friendly, high-quality packaging solutions that meet the dynamic needs of our clients."

ePac's global footprint extends beyond Canada, with 22 locations worldwide, including Europe, Asia Pacific, the Middle East, North Africa and North America, affirming its role as the global leader in digital flexible packaging. The company's all-digital business model emphasizes sustainability, offering a full range of sustainable film options and leveraging digital printing technology that is both carbon-neutral and eco-friendly.

About ePac:

ePac is the world's largest networked flexible packaging provider, serving brands of all sizes across the globe. Founded in 2016, ePac began with a single plant in Madison, Wisconsin serving predominantly community-based small and medium sized brands. Today, through its proprietary technology platform - ePacONE (One Network Everywhere), ePac provides brands of all sizes the ability to produce any size order in any of its 22 facilities across the globe.

ePac offers a full complement of sustainable film options, while its print technology platform is carbon-neutral and inherently eco-friendly. Further, the company offers true order to demand capability, helping brands reduce inventory and obsolescence.
