

Healthcare Facilities Management Market Revenues to Reach USD 665.56 billion by 2028 - Market Size, Share, Forecasts, & Trends Analysis Report by Mordor Intelligence

According to a new market research report titled “[Healthcare Facilities Management Market Report \(2023-2028\)](#),” the market is estimated at USD 398.74 billion in 2023. It is expected to register a CAGR of 10.79% during the forecast period.

The COVID-19 pandemic expansively widened the growth of the healthcare facilities market internationally. With the expansion in the number of COVID-19 patients, the increase in the number of diagnostics and treatments for the pandemic was witnessed, leading to the production of vast amounts of medical waste. Healthcare is a leading sector, owing to the mounting number of patients and rising healthcare expenditure by the public and private players in healthcare systems. Additionally, to maintain sustainable healthcare facilities management systems, even during the post-pandemic situation, the market is assumed to be on the rise, consequently boosting the studied market.

Report Summary:

Report Attribute	Details
Market Size (2023)	USD 398.74 billion
Market Size (2028)	USD 665.56 billion
CAGR (2023-2028)	10.79%
Study Period	2018-2028
Forecast Units	Value (billion)
Fastest Growing Market	Asia-Pacific
Largest Market	North America
Report Scope	Market Dynamics, Revenue Forecast and Segmentation, Competitive Landscape, and Recent Developments, Market Growth, Future Opportunities, and Trends
Key Market Drivers	A rising prevalence of chronic diseases.
	Technological advancements in medical devices.

Other Reports That Might Be of Your Interest:

- [Big Data Healthcare Market Report](#) - The big data healthcare market is poised to register a CAGR of 16.2% during the forecast period.
- [Healthcare Provider Network Management Market Report](#) - The healthcare provider network management market is expected to witness a CAGR of 15.5% over the forecast period.

Key Highlights from the Healthcare Facilities Management Market Report:

Waste Management to Hold the Largest Market Share

- Healthcare establishments generate a considerable quantity of both hazardous and non-hazardous wastes daily. When inappropriately handled, these dangerous wastes can compromise patient care quality.
- Additionally, according to the Central Pollution Control Board (CPCB) data in 2021, India generated nearly 164 tonnes of COVID-19-related bio-medical waste per day. Healthcare providers are looking to establish and implement programs to effectively manage healthcare waste, which is likely to contribute to the growth of the studied segment.

North America to Account for Major Market Growth

- North America is predicted to witness growth in healthcare facilities management in the forecast period due to the robust healthcare infrastructure and the introduction of different technologies for healthcare facilities management.
- Additionally, the steep rise in the volume of hospitals and increasing hospital admissions is driving higher demand for healthcare facilities management, by this means boosting the studied market growth.

What are the Latest Developments in the Healthcare Facilities Management Market?

- In October 2022, ISS AS acquired the facility management company Livit FM Services AG in Switzerland from its parent Company Livit AG.
- In May 2022, ABM partnered with ELEVATE with a strategy to accelerate growth through industry-leading use of technology and analytics and investments in the client and team member experience.
