Lesquin; August 17, 2023 – [NACON](#), a leader in premium gaming accessories and parent of the RIG audio brand, announces its first dual wireless RIG 600 PRO Series. The 600 PRO is designed to meet the diverse connection needs of gamers, boasting multiplatform dual wireless technology paired with signature RIG acoustics and comfort.

Featuring best-in-class low-latency 2.4GHz wireless and Bluetooth, the 600 PRO is the ultimate choice to game wirelessly on all your favourite devices, including PlayStation, Xbox, Nintendo Switch, PC and Mobile.

In addition to its multiplatform compatibility, the 600 PRO excels in performance, boasting a chat-optimized microphone that discreetly folds into the earcup when not in use. The integrated flip-to-mute function further enhances versatility, allowing gamers to take calls and communicate with their squad seamlessly.

“Almost 50% of gamers worldwide play on multiple platforms, and this trend shows no signs of slowing down.¹ Inspired by this, we set out to deliver a product that can be the core for all their game audio needs,” said NACON Global Business Director, Gregory Morquin. “The 600 PRO delivers exceptional performance and versatility while providing gamers with unparalleled value.”

Available in two models, the 600 PRO HS is designed for PlayStation® while the RIG 600 PRO HX is officially licensed for Xbox®.

DUAL-MODE WIRELESS

Get a competitive edge with best-in-class low-latency wireless using the USB-C wireless adapter or connect with Bluetooth for mobile gaming. Choose between Game, Bluetooth or Dual Mode, which keeps you connected to your game audio via the 2.4GHz dongle and lets you switch seamlessly to answer phone calls and receive notifications.

UNMATCHED AUDIO

Experience legendary audio quality. Equipped with 40mm headset drivers enclosed in a tuned acoustic chamber, the RIG 600 PRO delivers impressively balanced game audio. Bass-boosted high-sensitivity drivers provide more volume with less distortion. With an advanced acoustic design, the 600 PRO improves listening quality and reduces audio fatigue, making it the perfect choice for intense sessions or all-day gaming.
