

STROKE CARE EDUCATION OPPORTUNITIES

DNV GL Healthcare incorporates a risk-based thinking approach into each education course. All of our courses are approved by the State of California Board of Registered Nursing for contact hours. To get started contact your territory manager or email contacthc@dnvgl.com.

Stroke Boot Camp: Developing Leaders of Successful Stroke Programs

DNV GL Healthcare's Stroke Boot Camp course is designed to provide information and resources for stroke coordinators to lead successful stroke programs. This course will include an in depth review of the diverse role of the stroke coordinator and provide strategies to manage the role. The course is designed to offer the stroke coordinator a comprehensive overview of the standards and quality metrics for each level of certification. The course ends with a review of the stroke survey process.

Through lecture, activities, and group exercises, participants will:

- Identify role expectations for stroke coordinators in a certified stroke program and list typical daily tasks.
- Describe what a typical stroke survey agenda includes and how to prepare for the survey.
- Review the DNV GL stroke metrics with regards to quality objectives for all levels of stroke certification.
- Identify ways to stay current with changes in stroke care.
- Review the various opportunities for professional growth.

Stroke Certifications in Review

DNV GL Healthcare's Stroke Certifications in Review course is designed to train and refresh stroke program leadership in the requirements for all levels of stroke certification. This course will have a comprehensive review of the survey process from pre-survey preparation through post survey reports. The course ends with an intensive look at the standards and quality metrics for each level of certification.

Through lecture, activities, and group exercises, participants will:

- Identify the various levels of stroke certification offered by DNV GL Healthcare.
- Discuss how each level of stroke certification progresses and adds to the next, more complex level.
- List the various DNV GL Standards based on upon level of certification.
- Review the DNV GL stroke metrics with regards to quality objectives for all levels of stroke certification.
