

Looking for a solution to keep students engaged in reading all summer long?

Summer Reading Success with Kids Read Now!

97% of our returning 3rd-5th graders maintained or grew their reading skills over the summer break thanks to Kids Read Now.

SIMPLE. EVIDENCE-BASED. AFFORDABLE
Multiple independent research studies show KRN in-home reading programs result in significant reading gains. Read about it [here](#).

We mail award winning books kids love directly to your students' homes all summer long... all for 3% of the cost of summer school!

How it Works

1. BOOK SELECTION

- Kids pick their favorites from our online Wish List
- Bilingual titles available
- Arranged by reading level

2. FIRST BOOK ARRIVES!

- Selected books mailed directly home— one at a time

3. THEY READ THEM

- Kids read their books because they picked the titles AND THEY LOVE TO GET MAIL!

4. BOOKS ARE DISCUSSED

- Using the four discussion questions on the inside cover kids discuss the book with their parents. The questions are translated in the KRN App into over 100 languages!

5. BOOKS ARE REPORTED

- Parent or guardian texts the 3-digit code on the inside cover to Kids Read Now
- Report them all to win a prize!

6. AUTHOR THEIR OWN BOOK!

- As a fun extra, kids receive the MyStories book of illustrations with NO WORDS! They create the stories!

Support provided by the Kids Read Now program has been outstanding!

K-5 Net Reading Gains Over One Full Year

Students participating in Kids Read Now in-home reading programs add months of reading gains beyond their peers regardless of socioeconomic factors.

Kids Read Now

501(c)(3) Nonprofit

With documented success in eliminating reading gaps for students across 30 states, Kids Read Now is changing the narrative around learning loss. Rooted in research, the Kids Read Now program sustains classroom reading gains through choice, multi-lingual parental engagement, momentum building, monitoring and reporting. The efficacy of this model has led to recognition by The Library of Congress, Johns Hopkins University, The Journal of Education for Students Placed at Risk and several state legislatures.

Cultural connection lies at the heart of Kids Read Now book selection. Multiethnic and multicultural titles are of utmost concern when selecting books to include in the Kids Read Now collection. We believe that kids must **“see themselves”** in the pages they read.

Evidence abounds, indicating that students who are not proficient readers by fourth grade **may never catch up to their peers.**

Reading proficiency is developed through practice, which means more time spent reading outside the classroom.

Since 2017, Kids Read Now has served 468,000 students with 3.5 million books and stands ready to partner with you to achieve remarkable summer reading gains for your students.
