

## Early redemption of 44 "ORNANE" Notes End of bond financing (ORNANE)

Spineway, specialist in surgical implants and instruments for treating disorders of the spinal column (spine), announces the early redemption of 44 notes redeemable in cash and/or convertible into new and/or existing shares (the "Notes") and the end of the financing via issuance of Notes set up on 28 July 2017 with the YA II PN, LTD investment fund.

The diversification of Spineway's financing methods implemented as part of its strategic plan with the issuance of bonds convertible into new or existing shares (*OCEANE*) representing a maximum of €14.50M, resulted in the early redemption of the 44 Notes still in YA II PN, LTD's possession, for a total of 440 000 euros.

To this end, today Spineway redeemed 50% of the 44 Notes still in YA II PN, LTD's possession, i.e., €220 000. The remainder shall be paid end of October/early November 2018.

The early redemption of the Notes also results in the early termination of this agreement and therefore cancels the option for Spineway to trigger the final tranche of 100 Notes.

Finally, in order to protect the bearers of the 267 379 Warrants issued pursuant to the issuance of Notes with attached Warrants, the exercise ratio for said Warrants shall be adjusted as provided in the agreement.

This early redemption allows Spineway to clarify its financing methods and limit, in part, dilution. Thanks to solid financing via the issuance of OCEANE, Spineway will be able to implement its strategic plan and reorganize its US subsidiary and reposition its offer on its global markets.
