## **Lakeside Process Controls Celebrates Recognition as one of Canada's Most Admired Workplace Cultures in 2018**

**Mississauga, Ontario** – The Organization of Canadian Nuclear Industries (OCNI) is proud to congratulate Lakeside Process Controls on its recognition as one of Canada's Most Admired Cultures in 2018. As a successful innovative solutions provider to both OPG and Bruce Power for over 50 years, Lakeside displays a continuous effort to create customer value by addressing process automation challenges through creativity, teamwork and dedication. This event at the Lakeside office in Mississauga celebrates not only Lakeside's recent recognition as one of Canada's Most Admired Workplace Cultures, but also its important contributions to the Canadian nuclear industry as well as the high value and sustainable jobs it has created in the local community.

### **Quotes:**

"We are a firm believer in the importance of employee engagement and its inherent link to organizational productivity and success. The secret to our success is our people, so we put in tremendous effort to create and maintain our corporate culture of continuous improvement and learning. This puts us in the right position to deliver the best customer value. With Emerson as our partner, we have solved many unique automation challenges in the nuclear industry over the past 50 years. We look forward to continuing this legacy working with OPG and Bruce Power."

- **Greg Houston, President and CEO, Lakeside**

"Lakeside Process Controls sets a wonderful example of an innovative company that has flourished here in Ontario by attracting top talent that supports the high performance of Ontario's nuclear fleet while contributing to the high-tech economy here in Mississauga. I am also pleased to recognize Lakeside's important role on the Board of OCNI for the past six years."

- **Ron Oberth, President and CEO, OCNI**

"For more than 50 years, Lakeside Controls Ltd. has offered an array of innovative automation services here in our community and across the country. On behalf of the House of Commons, I would like congratulate Lakeside Controls Ltd. for being recognized as one of Canada's Most Admired Workplace Cultures and for its integral contributions to the nuclear industry. I am proud to have them here in Mississauga-Streetsville and I look forward to seeing them build on their history of leadership and innovation in Canada's nuclear sector."

- **Gagan Sikand, MP for Mississauga-Streetsville**

"As, Member of Provincial Parliament for Mississauga-Streetsville, I would like to congratulate and acknowledge Lakeside Controls on receiving the award for Canada's Most Admired Cultures in 2018. I applaud their continuous positive contributions to the Canadian nuclear industry as well as commend their efforts in creating well-paying sustainable jobs in our community. The corporate model that lakeside Control rests on, empowers each employee to create and add value whilst allowing for the effective execution of management goals."

- **Nina Tangri, MPP for Mississauga-Streetsville**

"I'm proud of the work that Lakeside Controls does in Mississauga, the high quality jobs they have created, and the role they play in our nuclear industry in Ontario. Our nuclear stations power our province and depend on the highly skilled people at Lakeside to keep them operating smoothly and safely. I congratulate Lakeside for their commitment to fostering an award-winning corporate culture and for being a being a world-class employer in our City. I wish them many more years of success in Mississauga."

- **Bonnie Crombie, Mayor of Mississauga**

"OPG would like to congratulate Lakeside Process Controls on its recognition as one of Canada's Most Admired Cultures in 2018. For over 50 years, Lakeside has been an important contributor to not only OPG but to the entire Canadian nuclear industry. We look forward to our continued work with Lakeside as we undertake completion of the largest, clean energy project in Canada, the refurbishment of Darlington Nuclear."

- **Robby Sohi, Chief Supply Officer, OPG**

"Bruce Power truly values its strong partnership with Lakeside Process Controls as it allows us to secure Made in Ontario solutions we need to successfully complete our Major Component Replacement projects, extending the life of our site to 2064," said Richard Horrobin, Bruce Power's Vice President and Managing Director of Supply Chain. "We are proud to work with caring and innovative companies like Lakeside and congratulate them on being named one of Canada's Most Admired Workplace Cultures in 2018."
