

EVERYONE WANTS TO WORK REMOTELY?

THINK AGAIN

IN PERSON

HYBRID

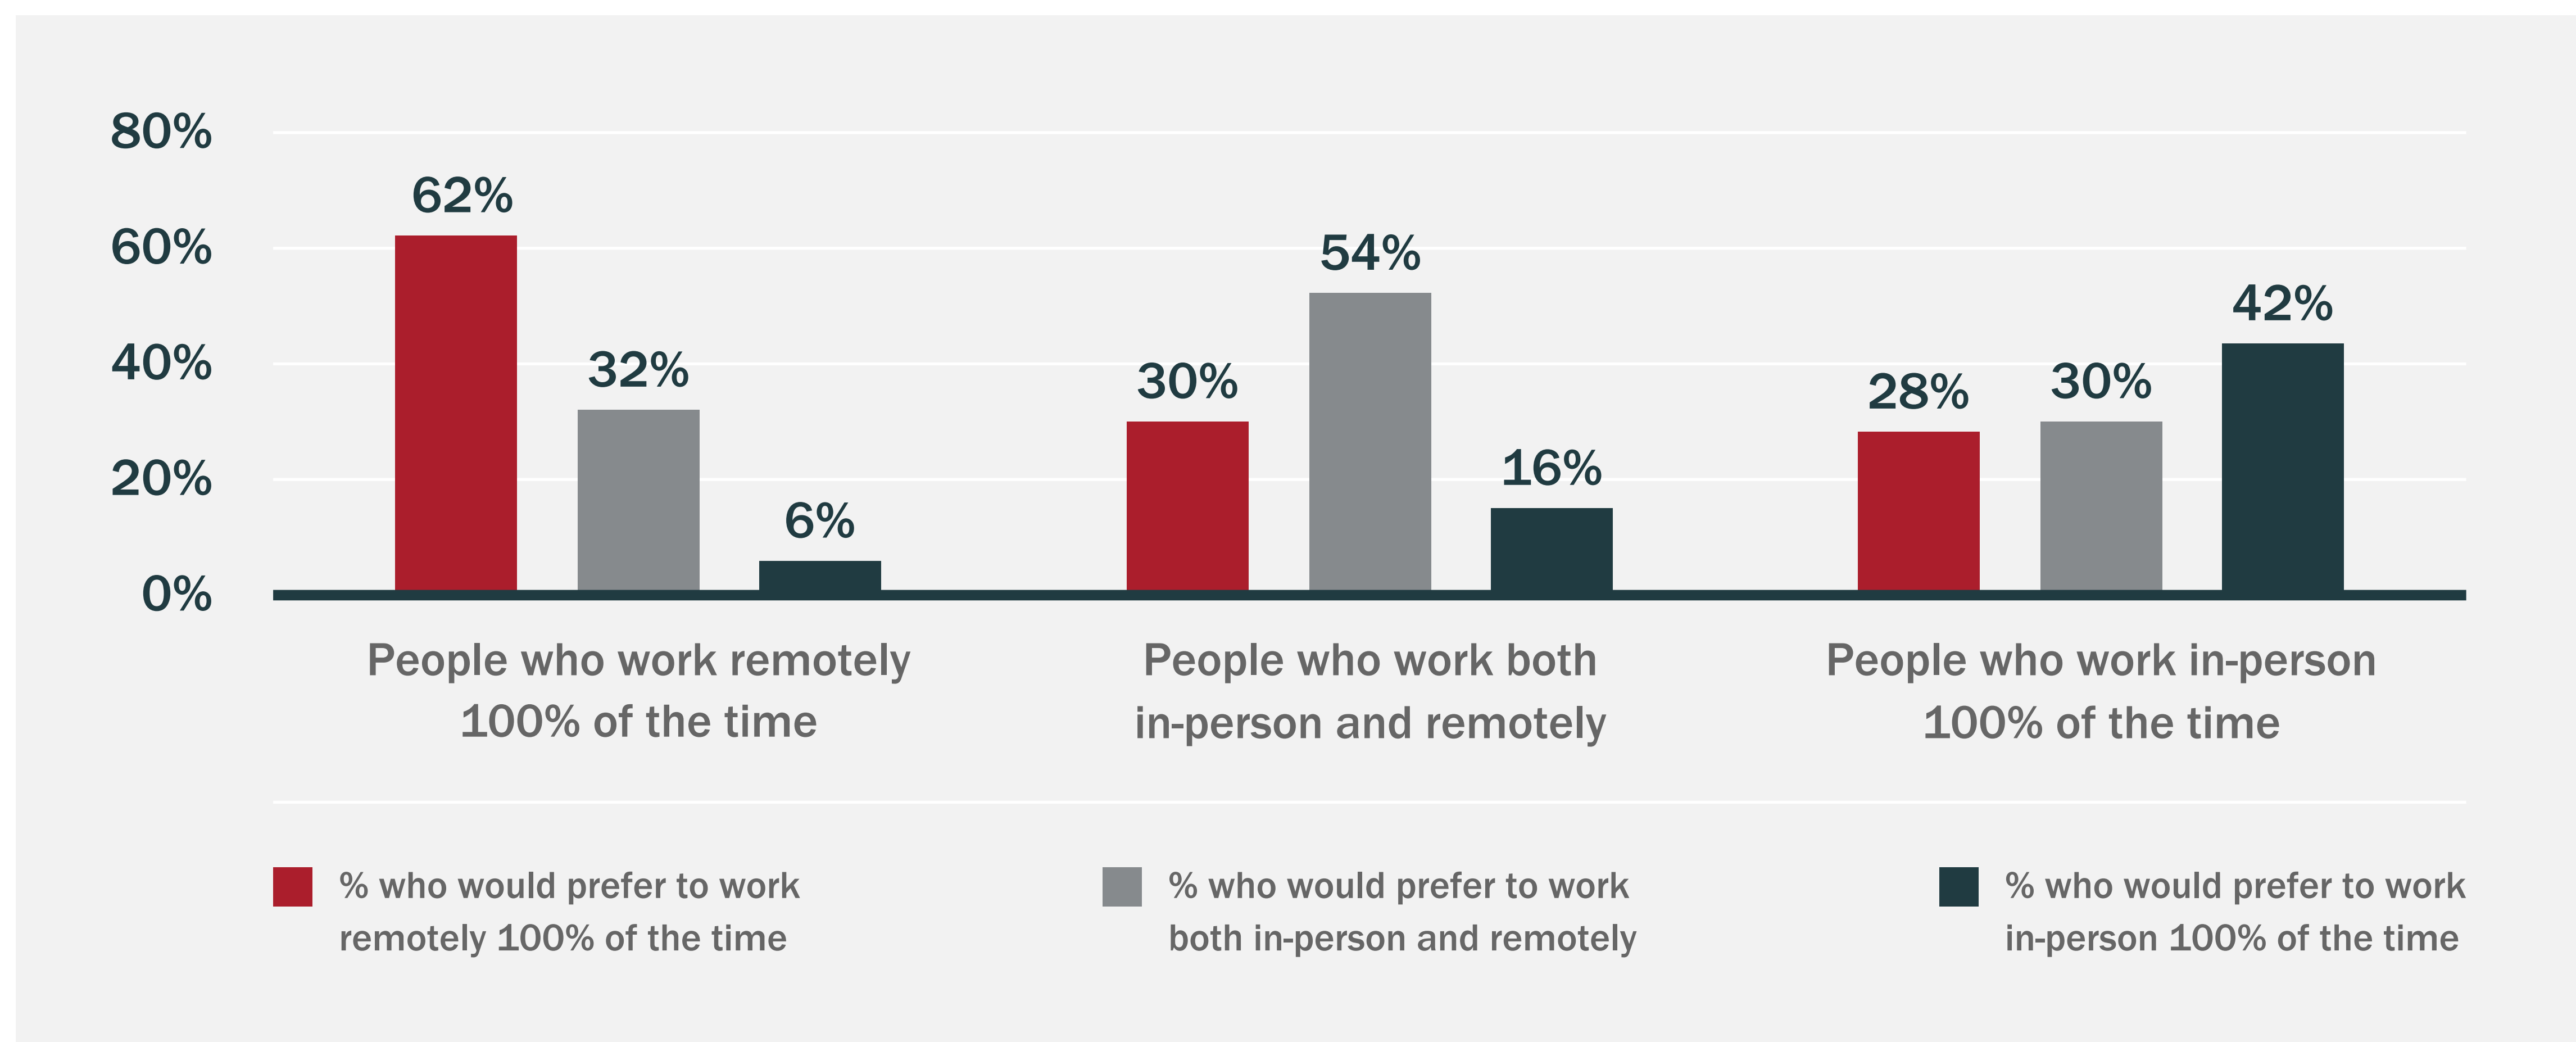

REMOTE

A new survey from Yoh conducted by the Harris Poll reveals that the assumption of how and where Americans want to work may be wrong.

Whether currently working 100% in-person, 100% remote or in a hybrid environment, most American workers want to keep their current work environment as it is.

In fact, even parents don't necessarily want to shift to a 100% work-from-home model.

MOST AMERICAN WORKERS PREFER TO MAINTAIN THEIR CURRENT WORK ENVIRONMENT

PEOPLE WITH CHILDREN AT HOME ARE NO MORE LIKELY TO WANT TO WORK REMOTELY THAN THOSE WITHOUT CHILDREN AT HOME.

19%

of people **with kids** at home want to work remotely

20%

of people **without kids** at home want to work remotely
