

ENHANCED RESPIRATORY CARE

× Certification of Clinicians

Fold

Certification in Enhanced Respiratory Care should be obtained by all healthcare professionals who care for mechanically ventilated patients. This particularly includes respiratory therapists in long-term acute care hospitals (LTACs), skilled nursing facilities (SNFs), and hospitals.

× Accreditation of Healthcare

The Physician-Patient Alliance for Health & Safety (PPAHS) Enhanced Ventilatory Care Accreditation is the benchmark standard of care for the management of patients with mechanical ventilation. This standard was set by the Enhanced Ventilatory Care Standards Committee. Enhanced Ventilatory Care Accreditation benefits your healthcare facility.

Enhanced Respiratory Care

Our Enhanced Respiratory Care program consists of two facets:

Certification of Clinicians in Enhanced Respiratory Care

Accreditation of Healthcare Facilities in Enhanced Respiratory Care

Middle

Certification

The course modules for the Enhanced Respiratory Care program consist of online and hands-on learning in:

- Culture of a Weaning Program
- Resident Selection
- Quality of Life
- Weaning Approaches
- Ventilator Unit Technology/Equipment
- Discharge Processes
- Process Improvement

Accreditation

Behind front right flap

The Physician-Patient Alliance for Health & Safety (PPAHS) Enhanced Ventilatory Care Accreditation is the benchmark standard of care for the management of patients with mechanical ventilation. This standard was set by the Enhanced Ventilatory Care Standards Committee. Enhanced Ventilatory Care Accreditation benefits your healthcare facility by:

- Improve patient safety and the quality of patient care
- Improved outcomes
- Competitive advantage
- Enhancing staff education
- Reimbursement recognition
- Improving liability insurance coverage
