A modern solution focused on prevention & early intervention.

MSK Screening & Consults

Our virtual functional screening with a PT will identify potential MSK susceptibilities among employees.

Early Intervention

Before MSK pain worsens, employees can connect virtually with physiotherapist experts who have extensive experience in a given MSK area.

Injury Prevention Programs

Our Phzio physiotherapists have developed a library of over 1000 educational exercise videos, and will recommend particular exercises based on the screening report.
